

# We care. And it shows.

Enhanced protocols have been implemented at all locations to help patients feel at ease receiving treatment in our clinics.

## Sanitize

- Designated area for used/dirty equipment and other items
- Additional disinfectant cleaners and hand sanitizers for patient use
- Schedule for cleaning hourly and between patients

## Screen

- Patients complete a questionnaire at every visit
- Temperatures are taken at every visit
- Patients who answer "yes" to any question or have a temperature above 99.5° are sent home

## Protect

- Patients are encouraged to wear face coverings in clinic
- Employees are provided a face covering to wear during treatment
- Gloves are available for patients and employees

## Cleanse

- Employees and patients wash and disinfect hands upon entry to clinic
- Proper hand hygiene signage posted throughout clinic
- Easy access to extra hand sanitizer

## Distance

- Limited number of patients in clinic at one time
- Patients only allowed in clinic
- Patients must wait in car until time for appointment
- Maintain 6ft social distance in clinic

## Monitor

- Employees are required to take temperature prior to reporting for work
- Employees are instructed to self-check for symptoms daily

*For patients who are not ready to join us in the clinic, we offer a virtual physical therapy experience through Telehealth, and when appropriate, Therapy in the Home.*
